

PUPIL CHARACTERISTICS AND CLASS SIZES SFR INDEX OF TABLES

Information about the tables published in this Statistical First Release

Figures based upon provisional data were published as SFR09/2008 on 29 April 2008. These tables are based upon provisional 2008 school census data and include tables at both national and local authority level along with figures showing cross border movement of school pupils resident in England.

In previous years, final school census data has been used to produce the Statistical First Release 'Schools and Pupils in England'. This year this publication will not be produced and instead figures have been added as additional tables to this SFR. Tables which were contained in the Final SFR but not in the Provisional SFR have been produced and published here. In cases where the Final SFR provided updates to tables published using provisional data, where the difference between provisional and final data makes a small difference to the tables no update has been published. The affected tables have been highlighted below. These figures, based upon final data, were published on 24 July 2008.
